

Annette Street Jr. & Sr. Public School / High Park Alternative School

Mad Science Extracurricular Programs will amaze your child and show them just how cool science, chess, and engineering can be!

| Program | Grades | Day & Time | Dates | Fee |
|------------------|-------------|----------------------------|----------------------------|----------------|
| Brixology | Gr 1 - Gr 6 | Wednesday 11:35 - 12:30 | Oct 12 - Nov 30 8 weeks | \$115.00 + HST |

Program Description

BRIXOLOGY: In this new and exciting program, children will build a different LEGO® project each week. Each program has been developed by a LEGO® Certified Professional. Mechanical engineering will be explored as students build boats and vehicles. Aerospace engineering will come alive as they assemble a space station. A wide array of scientific principals will be explored through Lego builds: carnival rides, drawing machines, mechanical animals, truss bridges, and so much more Your future engineer will foster their creativity through fun and hands-on design challenges. Let the tinkering begin!

Weekly Topics: Aerospace, Carnivals, Creatures, Vehicles, Towers, Boats, Bridges, and Machines.

 Register Online

www.toronto.madscience.org

Registration is first-come, first-served. Register early to secure your spot!

All registrations must be completed through Mad Science.
Registrations will not be accepted at the school.
