

Toronto Foundation for Student Success

SIGHT AND SOUND PROGRAM

Vision and hearing checks offered right in your school!

WHAT WE DO

The Sight and Sound Program provides school-based vision and hearing checks for children in Toronto. The Toronto Foundation for Student Success (TFSS) offers these school-based clinics because we know that if children can't see the chalkboard or hear their teacher, it is difficult for them to learn. We also know that, for parents, having an option for vision and hearing checks in schools can make planning for these important tests a little easier.

KEY FACTS

- » School-based clinics are operated by TFSS and staffed by internationally trained medical graduates and a registered CDA.
- » All results are given to parents, including a list of optometrists in the local area should further assessment be recommended.
- » These clinics are an optional service offered for families in their local schools.
- » For children under the age of 18, the cost of an annual eye examination with an optometrist in the community is covered by the Ministry of Health with your health card. Hearing exams for children birth-6 years are available free of charge in the community through the Infant Hearing Program.
- » A nominal fee is charged to help offset the cost of bringing this service into your school.

TFSS

The Toronto Foundation for Student Success (TFSS) is the independent, registered charity of the Toronto District School Board (TDSB), created to ensure that all students are ready and able to learn. For more information please visit our website:
